

Carpet Solution Instructions

1. Fill a 2-gallon container with room temperature water.
2. Remove powder packet from foil wrapper and add powder to the container.
3. Stir contents and allow the powder to completely dissolve for 10-15 minutes. The PuroClenz Carpet Solution is ready for use.
4. Saturate flooring that needs treatment and allow the product to dwell in the area for at least 1 hour.
5. After an hour has passed, extract the water using a carpet cleaner/extractor, and repeat if needed.
6. Any unused solution can be stored in a cool, dark place in a sealed container. The product will keep for up to 2 years.
